WORK OF CONGRESS

Arizona Excepted From the Land Court Bill.

A Quiet Day Passed in the Senate.

Encouragement to American Shipping Being Considered in Committee—The Silver Deal.

WASHINGTON, December 13.—In the Senate today among the bills introduced and referred were the following:

To establish a record and pension office in the War Department; to establish a board for advancement of the interest of the merchant marine.

Mr. Casey offered a resolution calling on the Secretary of Agriculture for information as to the progress made in the investigation for irrigation purposes.

The resolution was finally agreed to and the Senate resumed consideration of the Elections bill.

Mr. Jones, of Arkansas, addressed the Senate.

At the conclusion of Mr. Jones' remarks, as no other Senator took the floor, the presiding officer stated the question was on Mr. Graves' motion to strike out the House clause, and asked if the Senate was ready for a vote. After a long discussion, no action was taken.

Mr. Wilson, of Maryland, obtained the floor to speak against the bill and the Senate adjourned.

The House.

WASHINGTON, December 13.—The House today passed the Senate bill providing that in open steam launches of ten tons or under one person may act in the double capacity of pilot and engineer.

The Senate bill for inspection of cattle and hogs, and products subject to the interstate commerce law, was called up. Messrs. Mills and Stockbridge discussed the measure, which was referred to its proper committee.

The House went into Committee on the Whole on private land claims.

The bill to establish a court to adjudicate private land claims in Colorado, Wyoming, Arizona, New Mexico, Utah and Nevada, was taken up. After debate, the committee rose and the bill was agreed to, with an amendment excepting Arizona from the provisions of the measure.

Mr. McKinley reported a joint resolution to correct the Huntington Tassie act, relating to twine.

Mr. Dummel gave notice that on Tuesday he would ask the House to consider the Reapportionment bill.

The House then adjourned.

WORK IN COMMITTEE

To Aid American Shipping—The Congressional Silver Pool.

WASHINGTON, December 13.—A quorum of the House Committee on Merchant Marine and Fisheries today formally agreed to report a composite bill prepared by a majority of the members of the committee as a substitute for the Senate Tonnage and Subsidy bill. The motion was carried by a party vote, with the exception of Mr. Cumming, of New York, who voted by proxy for it. Chairman Farquhar later reported the bill to the House. The committee reports to the report a letter from the Commissioner of Navigation, showing the total payments under the bill for the first year would aggregate \$2,108,880.

Representative Dockery, of Missouri, today appeared before the Senate Committee on Rules and made a statement relative to his resolution for inquiry as to the allegation that Congressmen were parties to the silver pool. The committee took the subject under advisement.

The House Committee on Spirituous Liquors reported favorably today, the bill forbidding the sale and manufacture of intoxicating liquors in the District of Columbia.

The House committee investigating the charges made by Representative Cooper against the management of the pension office by Commissioner Raum, resumed its inquiry today.

AN ADVERSE REPORT

On the Projected Puget Sound Ship Canal.

WASHINGTON, December 13.—Secretary Proctor has sent to the House a report from Captain Symons on the result of a preliminary examination for a ship channel between Port Townsend Bay and Oak Bay.

Captain Symons reports that a ship channel to connect the two bays might be of considerable importance in time of war, but the commerce which would be benefited by the proposed canal is and will be not at all commensurate with the cost of opening and maintaining the same. If the proposed iron and steel works at Ironside are established, the benefits to be derived from the canal in the future may justify its being built, but he cannot at present believe they will.

To Send a Message About Silver.

WASHINGTON, December 13.—The President, it is understood, will send a message to Congress next week, suggesting enactment of legislation for the issue of additional currency, based on the increased silver purchases.

Senatorial Confirmations.

WASHINGTON, December 13.—The Senate today made the following confirmations: C. A. Dougherty, of Pennsylvania, as Secretary of the Legation at Mexico; J. J. Prince, as postmaster at Highlands, California.

Destructive Fire in Providence.

PROVIDENCE, R. I., December 13.—The Dorrance building, occupied by the Barnaby Clothing Company, was destroyed by fire this afternoon. A portion

of a wall fell on an adjoining building, doing considerable damage. Two firemen were painfully injured. Barnaby's loss is \$400,000. Other losses bring the aggregate up to \$500,000.

THE CRUISER NEWARK

Is Again Stopped on Her Trial Trip by a Small Accident.

PHILADELPHIA, December 13.—The new cruiser Newark started out again yesterday morning for a trial trip. During the first trial, last Wednesday, there was a break in the machinery, which necessitated repairs.

When she put to sea Friday morning there was a stiff northwest gale. The official trial had been in progress three hours when the two bells, which had been repaired, broke again, and for the second time the trial stopped, greatly to the disappointment of all on board, as the cruiser was doing magnificently.

One of the officers said that during the three hours she had logged an average of 19.5 knots, about 23 miles, an hour, and the indications were that her horse power would be about 9500. The officer said she was one of the steadiest ships on the Atlantic. Another trial will be made soon.

BOYCOTTERS FINED.

Federated Trades' Men Warned by a Sacramento Judge.

SACRAMENTO, December 13.—The case of contempt against six parties for disobeying the injunction of the Court in the Bee boycott suit was concluded last night, having lasted four days and evenings. Judgment was passed this morning.

H. W. Cuthbert, J. D. Laing and J. W. McMillan were found guilty. J. W. McKay, president of the Federated Trades, was discharged. The Court fined each defendant adjudged guilty \$20, and stated that further disobedience would be severely dealt with.

THE FLAG DOES NOT FLY

REASONS FOR ITS NON-APPEARANCE IN PHOENIX.

No Flag Staff on the High School Building—The Territory Does Not Own Any Flag.

The fact that the American flag is seldom seen on the masts of the different public buildings in Phoenix suggested to a Republican representative the idea of investigating the matter and he accordingly called first on Miss Fowler, the donor of a flag to the High School. Miss Fowler was absent, but her mother volunteered the information that her daughter had received a flag as a prize for an essay written for the Youth's Companion Publishing Company of Boston, Mass., and had presented it to the public schools.

"I do not know," said Mrs. Fowler, "why the flag is not raised. It would, of course, be a source of gratification to us to see it flying every day. My daughter is naturally proud of the prize and could not be pleased better than to have it decorate the school she yet attends."

Superintendent Long was next seen. "Yes," said he, "we have a flag, almost too nice to be switched by the breeze, though I think that were it not for the fact that the flag is on the school square would hide the flag from view the authorities would provide for its raising. We have not, however, a flagpole on the top of the Monroe Street building at present. There is a temporary pole which was put up on the front of the building at the time Miss Fowler donated the flag to the school. The other schools, too, are not provided with flags and there is some objection to raising a flag over one and not the other."

In pursuance of the flag question the reporter called on Governor Murphy. In answer to a query as to the absence of a flag over the capitol, the Governor said: "The Territory does not own a flag. We have the use of the city flag during the sitting of the Legislature, but as we are only tenants of the city building we can hardly ask the continual use of her flag."

UNDER THE TRICOLOR

FRENCH GOVERNMENT TRYING TO ADJUST THE SILVER QUESTION.

Strong Protective Tariff Measures to Be Submitted to the Chamber of Deputies—A Catholic Bank.

PARIS, December 13.—It is believed the government is endeavoring to arrange for an international monetary conference. England and some of the other powers may object on the ground of the utility of previous conferences. In such an event, powerful influence will be brought to bear upon the government to invite delegates from the Latin union, the United States and other countries, to discuss the silver question with a view to international regulation of the question.

The Tariff bill, as now shaped under the hands of the Committee of the Chamber, outdoes the McKinley bill in protectionism. The Grande Commerce League, a leading trade body, has issued a manifesto denouncing it, the inevitable result of which will be the ruin of commercial and shipping interests for the temporary profit of great manufacturers.

Le Matin announces the formation of a bank under the auspices of the Vatican, with a capital of 100,000,000 francs, of which the Jesuits will subscribe half.

The reaction against Koch's treatment in France has increased. Eight patients died soon after the injection of the lymph and this, with the fact that there has been no verified cure, intensifies public feeling against it.

A Chinaman to Be Hanged.

SAN FRANCISCO, December 13.—Judge Van Rynegom today sentenced Faim Poi to be hanged, at a date to be hereafter specified. He was convicted of murdering Fund Hoy in June, 1889. The Supreme Court has sustained the verdict.

THE FINANCIAL WORLD

Windom Confers With New York Bankers.

Long List of Failures for the Day.

Heavy Printing Firm in New York Reported to Be in Financial Straits.

NEW YORK, December 13.—Secretary Windom, who arrived in New York this morning, held a conference with a number of bankers on the financial situation. A full expression of views on the financial situation and the effect of additional silver legislation, and other matters was obtained.

The only statement that the Secretary made was that he was gratified at the movement of gold from Europe, in this direction. The Government would do all in its power to give relief to the financial and mercantile communities. He refused, absolutely, to be interviewed, but parties close to him state that he will not take any immediate action as a result of the conference.

Liabilities, \$150,000; assets, unknown. John Butler, banker, was manager of the company. Two days ago special trains were run on the Burlington and all the grain taken from the elevators to Chicago. The Metropolitan and German-American banks, of Minneapolis, are said to be losers. The elevator's accounts in the county bank at Luverne, are all right. A few Luverne merchants are involved for small amounts.

LOSS TO GRANGERS.

CRESTON, Ia., December 13.—The failure of the Farmers' Bank, at Fontanelle, Ia., yesterday, caused great excitement, many merchants and farmers being depositors. The reported liabilities are \$60,000; assets, \$25,000.

PITTSBURGH, December 13.—An execution for \$30,000 was today issued against the Pittsburgh Lumber Company. The trouble grew out of a dispute among the partners.

ON THE LONDON STOCK BOARD.

LONDON, December 13.—Edward Elliot, broker, failed today. His liabilities are considerable. Several jobbers in the American department of the market are involved.

SOUTHERN MILL FAILURE.

CLARKSVILLE, Tenn., December 13.—Peacher's mills have failed. Liabilities, \$25,000; assets about the same.

IN FINANCIAL STRAITS.

A Great Printing Firm Compelled to Ask an Extension of Time.

NEW YORK, December 13.—It was reported in financial circles today that the Trow Printing and Publishing Company had asked an extension of four months on some of its paper, bearing the endorsement of H. K. Thuermer, which has been readily granted. The amount could not be learned, but is supposed to be over \$125,000.

The president of one of the banks says he is sorry the matter has been made public, for he considered the company perfectly solvent. All notes discounted, he said, have Thuermer's endorsement, and the bank does not worry, because Thuermer's statement of assets foots up between \$30,000 and \$40,000.

The officers of the Trow Company could not be seen, but from other sources it was learned that the company does a very extensive business. The total assets are considerably over \$1,000,000, which greatly exceeds the liabilities.

OREGON IMPROVEMENT.

All Property of the Company to Be Placed in the Receiver's Hands.

SAN FRANCISCO, December 13.—Judge Healy, sitting in the United States Circuit Court this morning, made an order in the matter of the Oregon Improvement Company and Prosper V. Smith vs. the Farmers' Loan and Trust Company, by which the property of plaintiff now held under attachment must be turned over to the receiver of the company, Joseph Simon.

The property consists of credits on coal and the company's steamer City of Pueblo. Yesterday an order was made by which the property was transferred to the custody of the United States Marshal and it was followed by an order whereby the receiver takes charge of

every thing of the company's. Simon will hold the property subject to whatever liens may be created by the levy of writs and subject to the order of the Court. The Farmers' association has filed suit against the Improvement Company for a foreclosure of the first mortgage bonds, issued to secure the payment of bonds.

A Heavy Bond Filed.

PHILADELPHIA, December 13.—The Girard Life Insurance and Trust Company today filed a bond for \$200,000 as security for the trust resigned last week by the Barkers. It is claimed the trust was for the benefit of certain depositors.

"DEATH TO INFORMERS."

The Way Georgia Moonlighters Secure Immunity From the Law.

AUGUSTA, Ga., December 13.—Yesterday, travelers along the Central Railroad, at a point where it passes out of Lumpkin County into Dawson County, were horrified to find the dead body of a white man hanging over the middle of the road from a projecting limb of a tree, on which was fastened a card reading: "Death to Informers." The identity of the victim could not be established, neither is there any clue to the perpetrators of the deed.

This section has been terrorized for some time past by illicit distillers, and the victim may have been one of their own number who was about to turn informer or some Government detective.

PROGRESS OF THE POLITICAL FIGHT IN IRELAND.

KILKENNY, December 13.—A mass meeting in the interest of Scully, the Parnellite Parliamentary candidate, was addressed by Parnell today. He warned the electors not to trust Sir John Parnell, the candidate of Mr. McCarthy. Parnell spoke but briefly, showing signs of great fatigue, and his voice being so hoarse as to be at times almost inaudible.

The reporters are annoyed by mysterious changes he makes in his plans. He has now abandoned his visit to Limerick and will remain in Kilkenny until after the election.

On the arrival of Parnell's United Ireland at Castle Island today, a crowd seized the papers and burned them.

The dispute in regard to the right of drawing upon the funds of the National League has caused the bank in which the money is deposited, to order its branches not to honor checks sent to evicted tenants by the organization.

The laborers on the railway being built from Galway to Clifden have struck for an increase in wages. The road is being built by the government and the work started as part of Balfour's scheme for the relief of unemployed workmen.

Writes to the Press Concerning His Differences With Governor Ross.

GALVESTON, December 13.—British Consul Lyall has addressed the following to the News for publication:

"Governor Ross' demand for my exchequer to be withdrawn is a violation of all official etiquette on his part. Pending the question of my removal from the post of British Consul, the State authorities are entirely wrong in publishing any official or other correspondence bearing on the matter. With reference to improper conduct, I can affirm that none of my official letters to Governor Ross respecting the imprisonment of Kelly have in any way transgressed courtesy or have in any manner exceeded my consular duties. I am here to protect Her Majesty's subjects."

The fight took place in the Guadalupe Mountains, east of the San Berna rdino range. Five Indians were seen, but it is impossible to know how many were present and the fact that they were surrounded shows that there were more than five there. The citizens of Lima are becoming alarmed, and arms and ammunition were sent from this place today to citizens of Lima. BERLIN, December 13.—The Bundesrath has refused to approve the resolution adopted by the Reichstag by which theological students are to be permitted to pass three months of their army services in hospital work. It is considered that this refusal indicates that the Bundesrath will not pass any measure for the recall of the Jesuits, unless Caprivi uses the whole of his influence with the government to support their demands.
